Portfolio

Education

Master - Information Systems and Data Science, ENSAM

10/2025 – 07/2027

Casablanca

The specialized master's program in Information Systems and Data Science at ENSAM Casablanca aims to train professionals in information systems with dual expertise in management and computer science. Graduates will be capable of enhancing business competitiveness through the implementation of high-performance, advanced technology applications. They will be able to initiate, manage, and successfully carry out comprehensive IT projects in Information Systems (IS) or Business Intelligence (BI).

Degree in computer science and Development of Web and Mobile Applications,

09/2019 – 07/2021

OFPPT (Office of Vocational Training and Work Promotion)

Agadir, Morocco

2010 – 2011

Agadir, Morocco

Professional Experience

Full Stack Developer, Cora Tech

06/2025 – Present

Casablanca

- Writing code in HTML5, CSS3, JavaScript, React, Next, Axios, TailwindCSS.
- Converted design to components.
- Handled bugs and tested for usability.
- Add unit testing, e2e testing.
- Deploying the application.
- Refactoring and improving existing React code for scalability, performance, and security.

Full Stack Developer, TickTickTrader

05/2023 – 06/2025

- Develop and maintain the user interface of web applications.
- Implement responsive designs and ensure cross-browser compatibility.
- Use front-end frameworks/libraries like React, or NextJS.
- Design, implement, and maintain server-side logic using Node.js or other back-end frameworks like ExpressJS and NestJS.
- Create and manage databases (e.g., MongoDB, MySQL) and optimize database queries.
- Write unit tests for both front-end and back-end components.
- Design and develop RESTful APIs for communication between the front end and back end.
- Collaborate with cross-functional teams, including designers, product managers, and other developers.
- Implemented gRPC services to enhance communication efficiency and performance in the backend, replacing REST for optimized data exchange between microservices.

- Improved service scalability and response times, leveraging gRPC's bidirectional streaming capabilities to handle complex, high-throughput data operations.

Full Stack Developer, *Freelance*

10/2022 – 04/2023

- Make the player appear on every page in the app.
- Suggested and added new features.
- Implement a function to copy the URL's music.
- Implemented infinite scroll.
- Create a form for adding a new album.
- Implement a function to share music on social media with the URL's music.
- Developing and maintaining the user interface.

Full Stack Developer, *DevoTech*

10/2021 – 09/2022

Agadir, Morocco
